BRIEF DESCRIPTION OF DUTIES

The Lead-MAJCOM for aircraft and mission set will determine the Multi-domain Operations Aviator (MOA) performance tasks as outlined in Master Training Tasks/Task Training Lists associated with Mission Design Series crew positions. Performs preflight and post-flight requirements of aircraft and aircraft systems. Performs duties as an aircrew member on manned aircraft or Remotely Piloted Aircraft (RPA). Integrates air, space, and cyber domains at the operational level to plan, coordinate, allocate, task, assess, and monitor mission systems to ensure lethal and non-lethal application of airpower. Performs surveillance, combat identification, weapons control, tactical data link management, communications, and airborne network management. Performs mission planning of aircraft and aircraft systems in accordance with aircraft technical orders, applicable Air Force Instructions (AFIs), and Unified Combatant Commands' theater Rules of Engagement (ROE). Detects, analyzes and discriminates between valid and invalid targets using radar systems, electro-optical, low light, infrared full motion video imagery, and other active or passive target acquisition and tracking systems. May be responsible for terminal guidance of precision guided munitions. Supervises and instructs personnel on the operation, maintenance, repair, and test procedures of airborne and ground based aircraft systems. Establishes, manages, and supervises aircrew training. Coordinates with maintenance, communication technicians, and intelligence units to satisfy unit training requirements, including weapons and tactics programs. Evaluates aircrew academic, simulation, in-flight performances, and systems capabilities and recommends improvements.

KNOWLEDGE, SKILLS AND ABILITIES (KSAs) REQUIRED FOR THIS POSITION:

- A. Ability to collect and interpret mission data, employ sensors to actively and/or passively acquire, track, and monitor airborne, maritime, and ground objects.
- B. Knowledge of and Ability to support air and ground-based operations to validate targets and threats using various sensors, systems, and munitions to conduct multiple mission sets. Monitor radio communications and analyze intelligence data to direct aircraft positions to assist in navigation and fire control planning. Interpret charts, imagery, and video data supporting relay of information to various agencies to provide real-time mission data, threat, and target updates.
- C. Ability to plan and operate datalink operations for the area of responsibility to create a single integrated common operating picture. Compare and report track positions based on flight data. Maintain logs, forms, and database files of aircraft and missions.
- D. Knowledge and Ability to establish and direct aircrew training. Supervise, instruct and evaluate aircrew members.
- E. Skill in developing instructions for equipment operations, maintenance, and troubleshooting, ensuring standardized procedures. Identify training needs, oversee training programs, and validate instructional methods and arrange remedial and continuation training.
- F. Ability to manage operational and maintenance functions. Maintain records, solve complex operational problems, and recommend maintenance and operational enhancements. Advise developers on system operations and maintenance to support acquisition, development, and updates of aircraft systems.
